Orders in Council/Décrets

O.C./Décret 202/94

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS subsection 3 of section 15 of the Crown Timber Act provides that the Lieutenant Governor in Council may, upon 30 days

notice of his intention so to do by publication in The Ontario Gazette, suspend the operation of subsection 1 of section 15 of the Crown Timber Act as to any kind or class of timber that he designates and as to any area that he defines and for such period and upon such other terms and conditions as he considers proper;

AND WHEREAS Lajambe Forest Products Limited, a company which operates a veneer mill and sawmill facility located in the City of Sault Ste. Marie, Ontario and which utilizes white pine, red pine, maple, yellow birch, white birch and oak logs in its mills, has applied to the Minister of Natural Resources to obtain approval to export 20,000 cubic metres of white pine and red pine logs of pulpwood quality annually for sale to pulp mills located in Michigan, U.S.A. which are operated by The Mead Corp., Weyerhaeuser and ABT Co. Inc.;

AND WHEREAS the period of the suspension of subsection 1 of section 15 to permit export referred to above is for the term commencing with final approval of the Order in Council and ending March 31, 2000;

AND WHEREAS Lajambe Forest Products will be required to apply annually to the Director, Provincial Operations Branch of the Ministry of Natural Resources, to obtain approval to export the above noted volume of pulpwood quality logs in any one year;

AND WHEREAS Lajambe Forest Products will be required to apply annually to the Director, Provincial Operations Branch of the Ministry of Natural Resources, to obtain approval to export the above noted volumes in any one year;

AND WHEREAS Lajambe Forest Products Limited currently holds Crown timber licences on various areas in the Sault Ste. Marie and Wawa administrative districts of the Ministry of Natural Resources and other Crown timber licences from which such Crown timber proposed for export will be harvested;

AND WHEREAS Lajambe Forest Products has indicated that it is unable to utilize the aforesaid logs in its Sault Ste. Marie, Ontario mills and that it has offered the pulpwood logs for sale to other pulpwood mills in Ontario, and that those mills are unable to purchase the offered material at this time due to a combination of current market conditions, species utilization, and an excess supply of pulpwood quality logs;

AND WHEREAS Lajambe Forest Products Limited has indicated that it has found potential purchasers for the above mentioned pulpwood quality logs being offered;

AND WHEREAS the Minister of Natural Resources, upon review of the application by Lajambe Forest Products Limited to export Crown timber to U.S.A., would like to act favourably upon that application in order that the aforesaid volume of logs can be utilized;

NOW THEREFORE the Honourable Minister of Natural Resources recommends, that under subsection 3 of section 15 of the Crown Timber Act, the Lieutenant Governor in Council by publication in the Ontario Gazette give notice of intention to suspend the operation of subsection 1 of section 15 of the Crown Timber Act for the period commencing with the approval of the final Order in Council and ending March 31, 2000 in respect of:

The export of up to 20,000 cubic metres, or its equivalent, in total, of white pine and red pine logs of pulpwood quality logs of Crown timber by Lajambe Forest Products Limited, subject to the following terms and conditions:

- (i) Lajambe Forest Products will be required to apply each year in writing to the Director, Provincial Operations Branch, stating the details of the volume, species and type of logs to be exported, the source and the intended destination by November 30th of the year prior to export and obtain the approval of the Director;
- (ii) The export of Crown timber is limited to the species and volume indicated above;
- (iii) Approval of the export for any specific year does not imply approval of the export of any additional or future volumes;
- (iv) An absence of a local Ontario market for the sale of this material must be indicated for approval of the export application, and when requested by the Director, may require provision by Lajambe Forest Products of a copy of documentation from an Ontario mill which indicates that the mill will not require the pulpwood quality logs in the forthcoming year;
- (v) Lajambe Forest Products Limited, shall be required to pay to the Treasurer of Ontario, in addition to other Crown charges payable, in advance, \$0.50 per cubic metre for white pine and red pine pulpwood quality material to be exported.

THE HONOURABLE MINISTER of Natural Resources further recommends that effective 30 days from the date notice of such intended suspension is published in the Ontario Gazette, the Lieutenant Governor in Council so suspend the operation of subsection 1 of section 15 of the Crown Timber Act.

Due to the application of Ontario Regulation 345/93 in relation to certain applications for approval under the *Planning Act*, the Minister of Municipal Affairs (the Minister), as well as those regional and municipal governments who have been delegated the powers of the Minister to approve such applications will be unable to carry out these approval responsibilities in an efficient and effective manner.
- B. Private sector developers who currently have *Planning Act* applications at various stages of approval, and who will be unable to utilize the existing phase-in provision provided under Ontario Regulation 345/93, may be required to withdraw these applications in order to clarify how the regulation will affect their applications.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the

protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The creation of Ontario Regulation 345/93, designating enterprises or activities of private sector developers who were undertaking a project listed in Schedule C of the Municipal Engineers Association Class Environmental Assessments (Class EAs) for Water and Wastewater Projects, and for Road Projects, was a co-operative process supported by both the Municipal Engineers Association and the Urban Development Institute representing the development industry. Application of the EA requirements contained in Ontario Regulation 345/93 without the benefit of the clarification and guidance requested by these parties as well as the Regional Planning Commissioners of Ontario may jeopardize this co-operative relationship.
- B. Application of the EA requirements listed in Ontario Regulation 345/93, without the clarification and guidance that will be provided through the ongoing discussions, may result in unnecessary delays in acquiring *Planning Act* approvals for projects currently underway. This could create considerable financial hardship for private developers.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. This exemption shall cease to apply on July 1, 1994. O. Reg. 41/94.

BUD WILDMAN
Minister of Environment and Energy

Remarque : Depuis le 1^{er} janvier 1993, le Règlement 244 a été modifié par les Règlements de l'Ontario 264/93 et 577/93. Pour les modifications antérieures, voir la Table des règlements qui figure dans les Lois de l'Ontario de 1992.

1 (1) Le paragraphe 8.1 (3) de l'annexe du Règlement 244 des Règlements refondus de l'Ontario de 1990 est abrogé et remplacé par ce qui suit :

(3) Les choix exercés par l'assuré pour l'année précédente, tels qu'ils sont décrits dans l'avis de renouvellement, s'appliquent.

(3.1) Malgré le paragraphe (3), la Commission peut indiquer un choix dans l'avis de renouvellement et ce choix fait alors partie du contrat de l'assuré.

(3.2) Despite subsections (3) and (3.1), the insured person may forward the change notice signifying a different election to the Commission and that different election will form part of the insured person's contract.

(2) Section 9 of the Schedule to the Regulation is amended by adding the following paragraph:

8. If there has been a quality adjustment under paragraph 5 of Form 1 to the insured person's actual yield in the previous crop year, the Commission shall calculate the average farm yield by including the insured person's actual yield for that year before the quality adjustment was made.

(3) Sections 11 and 12 of the Schedule to the Regulation are revoked and the following substituted:

11.—(1) The coverage provided under a contract of insurance is the total guaranteed production multiplied by the established price.

(2) The total guaranteed production under a contract of insurance is the average farm yield in bushels, as determined by the Commission, multiplied by the total number of acres planted to red spring wheat multiplied by the appropriate percentage as selected from subsection (3), less 2 per cent.

(3) In each crop year, an insured person shall select one of the following percentages:

70%
75%
80%

12.—(1) For the purposes of this plan, the established price is 100 per cent of the floating price per bushel.

(2) The floating price per bushel is the lesser of,

- (a) the target price as defined in the Interim Gross Revenue Insurance Plan Program; and
- (b) the average price received by producers on sales of Grade 2 red spring wheat sold up to and including November 30 in each crop year as determined by the Ontario Wheat Producers' Marketing Board.

(3) For the purposes of this section, "target price" means an amount equal to 80 per cent of the most recent fifteen year market price for an eligible crop, as adjusted to account for the changes in Farm Input Price Index for Crop Production in Eastern Canada.

(4) Subsections 14 (1) and (3) of the Schedule to the Regulation are revoked and the following substituted:

(1) In the formulas used in this section,

"A" is the surcharge or discount rate determined in accordance with subsections (4) and (5),

"B" is the number of years the insured person has been enrolled in the plan,

"C" is the insured person's loss to coverage ratio determined in accordance with subsection (6),

"D" is the plan's loss to coverage ratio determined in accordance with subsection (7), and

"E" is the base premium rate in accordance with the Table.

(3.2) Malgré les paragraphes (3) et (3.1), l'assuré peut faire parvenir à la Commission l'avis de changement l'informant d'un choix différent et ce choix différent fait alors partie du contrat de l'assuré.

(2) L'article 9 de l'annexe du Règlement est modifié par adjonction de la disposition suivante :

8. Si le rendement réel de l'assuré a fait l'objet d'un rajustement au titre de la qualité aux termes de la disposition 5 de la formule 1 au cours de la campagne agricole précédente, la Commission calcule le rendement moyen de l'exploitation agricole à l'aide du rendement réel de l'assuré pour cette campagne avant le rajustement au titre de la qualité.

(3) Les articles 11 et 12 de l'annexe du Règlement sont abrogés et remplacés par ce qui suit :

11 (1) La garantie fournie aux termes du contrat d'assurance est égale au montant obtenu en multipliant la production garantie totale par le prix fixé.

(2) La production garantie totale aux termes du contrat d'assurance est égale au montant obtenu en multipliant le rendement moyen de l'exploitation agricole, calculé en boisseaux, que détermine la Commission, par le nombre total d'acres où est planté du blé roux du printemps, ce nombre étant ensuite multiplié par le pourcentage approprié prévu au paragraphe (3), moins 2 pour cent.

(3) Pendant chaque campagne agricole, l'assuré choisit l'un des pourcentages suivants :

70 %
75 %
80 %

12 (1) Dans le cadre du présent régime, le prix fixé correspond à 100 pour cent du prix variable au boisseau.

(2) Le prix variable au boisseau est le moindre des montants suivants :

- a) le prix cible précisé dans le cadre du Programme temporaire d'assurance du revenu brut;
- b) le prix moyen touché par les producteurs à la vente de blé roux du printemps de grade 2 vendu jusqu'au 30 novembre inclusivement de chaque campagne agricole, tel qu'il est déterminé par la Commission ontarienne de commercialisation du blé.

(3) Pour l'application du présent article, «prix cible» s'entend du montant égal à 80 pour cent du prix du marché de la période de quinze ans la plus récente pour une culture admissible, rajusté pour tenir compte de l'évolution de l'Indice du prix des entrées dans l'agriculture pour la production de cultures dans l'Est canadien.

(4) Les paragraphes 14 (1) et (3) de l'annexe du Règlement sont abrogés et remplacés par ce qui suit :

(1) Les variables suivantes s'appliquent aux formules utilisées dans le présent article.

«A» correspond à la majoration ou à la réduction de prime déterminée conformément aux paragraphes (4) et (5).

«B» correspond au nombre d'années d'adhésion de l'assuré au régime.

«C» correspond à la proportion que représente la perte subie par l'assuré par rapport à la garantie, déterminée conformément au paragraphe (6).

«D» correspond à la proportion que représente la perte subie par le régime par rapport à la garantie, déterminée conformément au paragraphe (7).

«E» correspond au taux de prime de base déterminé selon le tableau suivant.

2.—(1) Paragraph 2 of Form 1 of the Regulation is revoked and the following substituted:

- (c) the insured person notifies the Commission of an inability to plant the acres to the crops listed in the Table by June 15 in the crop year.

(2) The amount of the indemnity is one-third of the guaranteed production per acre of the crop having the highest priority, as set out in the Table, of the crops intended to be planted and insured by the insured person, multiplied by \$3.54 per bushel.

(3) Despite subparagraph (2), the acreage for which the indemnity is payable is reduced by,

- (a) the greater of 1 per cent of the unplanted acreage or, in the case of systematically tile-drained land, three acres; or

(4) No indemnity is payable under this paragraph for land for which an indemnity for unseeded acreage was paid by the Commission in the immediately preceding year.

(5) If the insured person is unable to plant acreage designated on the application as intended to be planted to a crop listed in the Table, the Commission shall deduct, from the indemnity payable, \$1 for each unplanted acre.

(6) This paragraph does not apply to and no indemnity is payable in respect of land that,

- (a) is orchard land, pasture, woodland, planted to a perennial crop, fall sown or intended for summer fallow;
- (b) is untilled and was not cropped in the previous year; or

- c) l'assuré avise la Commission de l'impossibilité de planter les cultures figurant au tableau au plus tard le 15 juin de la campagne agricole.

(2) Le montant de l'indemnité est égal au tiers de la production garantie par acre de la culture ayant la plus haute priorité, selon le tableau, parmi les cultures dont la plantation a été projetée et que l'assuré a assurées, multiplié par 3,54 \$ le boisseau.

(3) Malgré la sous-disposition (2), la superficie à l'égard de laquelle l'indemnité est payable est réduite des quantités suivantes :

- a) soit 1 pour cent de la superficie non plantée ou, dans le cas d'une terre systématiquement drainée au moyen de tuyaux, trois acres, selon la quantité la plus élevée;

(5) Lorsque l'assuré n'est pas en mesure de planter comme prévu une culture figurant au tableau sur la superficie de plantation désignée dans sa proposition d'assurance, la Commission déduit de l'indemnité payable 1 \$ par acre non planté.

(6) La présente disposition ne s'applique pas aux terres suivantes et aucune indemnité n'est payable à leur égard :

- a) les vergers, les pâturages et les terrains boisés où sont ensemencées des cultures vivaces ou des cultures devant être ensemencées à l'automne, ou qui sont laissés en jachère;
- b) les terres qui ne sont pas labourées et qui n'ont pas été récoltées l'année précédente;
- c) les terres qui ne sont pas assurables selon la Commission.

(7) If the planting is prevented by excessive rainfall, no indemnity is payable unless the insured person establishes that, during the planting season in the area where the insured acreage is situated,

- (a) an abnormal amount of rain occurred;
- (b) the rainfall resulted in a reduced number of work days; and
- (c) a significant number of other insured persons were similarly affected.

(2) Subparagraph 3 (2) of Form 1 of the Regulation is revoked and the following substituted:

(2) If the damaged acreage is replanted to the insured crop, an indemnity of \$40 is payable for each acre replanted and the contract of insurance continues to apply to such acreage.

- a) les précipitations ont été anormales;
- b) les précipitations ont entraîné une réduction des jours de travail;
- c) un nombre important d'assurés ont été touchés de façon similaire.

(2) La sous-disposition 3 (2) de la formule 1 du Règlement est abrogée et remplacée par ce qui suit :

(2) Lorsque la récolte assurée est replantée sur la superficie endommagée, une indemnité de 40 \$ par acre replanté est payable et le contrat d'assurance continue de s'appliquer à cette superficie.

(3) La formule 1 du Règlement est modifiée par adjonction de la disposition suivante :

5 Lorsque, en raison d'un risque assuré, la récolte assurée est réduite au grade de fourrage, la production réelle correspond à 85 pour cent du rendement de la récolte.

ONTARIO REGULATION 99/94
made under the
CROP INSURANCE ACT (ONTARIO)

Made: January 24, 1994
Approved: February 16, 1994
Filed: March 1, 1994

Amending Reg. 255 of R.R.O. 1990
(Crop Insurance Plan—Winter Wheat)

Note: Since January 1, 1993, Regulation 255 has been amended by Ontario Regulation 304/93. For prior amendments, see the Table of Regulations in the Statutes of Ontario, 1992.

1.—(1) Section 3 of the Schedule to Regulation 255 of the Revised Regulations of Ontario, 1990 is amended by striking out the definitions of “1992 crop year” and “1993 crop year”.

(2) Section 8.1 of the Schedule to the Regulation is amended by adding the following clause:

- (a.1) if there has been quality adjustment under paragraph 7 of Form 1 to determine the insured person's actual yield in the previous year, calculate the average farm yield by including the insured person's actual yield for that year before the quality adjustment was made;

(3) Section 9 of the Schedule to the Regulation is revoked and the following substituted:

9.—(1) The coverage provided under a contract of insurance is the total guaranteed production multiplied by the established price.

(2) The total guaranteed production under a contract of insurance is the average farm yield in bushels, as determined by the Commission, multiplied by the total number of acres planted to winter wheat, multiplied by the appropriate percentage, as selected from subsection (3), with the final amount reduced by 2 per cent.

(3) In each crop year, an insured person shall select one of the following percentages:

75%
80%
85%
90%

(4) Subsections 11 (1) and (1.1) of the Schedule to the Regulation are revoked and the following substituted:

(1) For the purposes of this plan, the established price per bushel for winter wheat is 100 per cent of the floating price.

(1.1) The floating price per bushel is the lesser of,

- (a) the target price for the current crop year as defined in the Interim Gross Revenue Insurance Plan Program; and
(b) the average price of Crop Grade 2 winter wheat sold between July 1 and August 31 in the crop year, as determined by the Ontario Wheat Producers' Marketing Board.

(1.2) For purposes of this section, “target price” means an amount equal to 80 per cent of the most recent fifteen year market price for an eligible crop, as adjusted to account for the changes in Farm Input Price Index for Crop Production in Eastern Canada.

(5) Section 12 of the Schedule to the Regulation is revoked and the following substituted:

12.—(1) In the formulas used in this section,

“A” is the surcharge or discount rate determined in accordance with subsections (4) and (5),

“B” is the number of years the insured person has been enrolled in the plan,

“C” is the insured person's loss to coverage ratio determined in accordance with subsection (6),

“D” is the plan's loss to coverage ratio determined in accordance with subsection (7), and

“E” is the base premium rate in accordance with the Table.

TABLE

Percentage Chosen by Insured	Base Premium Rate Per Acre
75%	\$ 7.40
80%	\$ 9.00
85%	\$11.40
90%	\$14.40

(2) The premium payable in the crop year is determined by multiplying the total number of acres planted to winter wheat by the premium rate as determined under subsection (3).

(3) The premium rate is determined as follows:

$$\text{Premium Rate} = (1 + A) \times E$$

(4) “A” is determined by the following formula:

$$A = B \left(\frac{C}{D} - 1 \right) \div 20$$

(5) If, after applying the formula in subsection (4),

- (a) for an insured person who has participated in the plan for one year,
- (i) the value of A is more than 0.05, it shall be deemed to be 0.05, or
- (ii) the value of A is less than minus 0.05, it shall be deemed to be minus 0.05;
- (b) for an insured person who has participated in the plan for two years,
- (i) the value of A is more than 0.10, it shall be deemed to be 0.10, or
- (ii) the value of A is less than minus 0.10, it shall be deemed to be minus 0.10;
- (c) for an insured person who has participated in the plan for three years,
- (i) the value of A is more than 0.10, it shall be deemed to be 0.10, or
- (ii) the value of A is less than minus 0.15, it shall be deemed to be minus 0.15; or
- (d) for an insured person who has participated in the plan for four years,
- (i) the value of A is more than 0.10, it shall be deemed to be 0.10, or
- (ii) the value of A is less than minus 0.20, it shall be deemed to be minus 0.20.

(6) The insured person's loss to coverage ratio is determined by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person's coverage for the number of years the insured person has been enrolled in the plan.

(7) The plan's loss to coverage ratio is determined by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

(6) The Schedule to the Regulation is amended by adding the following section:

TERRITORY

30. In this Part, "leaf and yard waste composting site" means a waste disposal site to which this Part applies. O. Reg. 101/94, s. 30.

31. Each operator and owner of a leaf and yard waste composting site shall ensure that the site is operated in accordance with the following requirements:

1. Only leaf and yard waste and wood (not including painted or treated wood or laminated wood) may be accepted at the site.
2. Leaf and yard waste may not be stored for more than four days before it is composted.
3. The total amount of compost on the site that is in or has completed the curing stage shall not exceed eighteen times the monthly process design capacity of the site.

4. The leaf and yard waste accepted at the site shall be composted so that the temperature inside the composting mass is at least 55 degrees Celsius,
 - i. on at least three different days if the waste is being composted in a vessel,
 - ii. on at least fifteen different days in any other case.
5. If the waste is being composted using turned windrow composting, the windrow shall be turned at least five times at regular intervals after the temperature first reaches 55 degrees Celsius and the temperature must reach at least 55 degrees Celsius after the fifth turning.
6. During composting, the composting mass shall be provided with ventilation adequate to ensure that aerobic conditions are maintained.
7. After the requirements in paragraphs 4 and 5 have been satisfied, the compost shall be cured for a period of six months.
8. During curing, a composting mass shall be turned at least once a month.
9. The temperature of each composting mass shall be measured daily until the requirements in paragraphs 4 and 5 have been satisfied. During curing the temperature shall be measured weekly.

11. A record containing information about each composting mass shall be kept. The information shall include the temperatures of the mass and when they were measured, when the mass was turned, information about the curing process and details about any significant problems that occurred during the composting or curing. Information about a composting mass shall be retained in the record for at least three years after the mass was cured.
12. A plan for dealing with odour problems shall be prepared before waste is first accepted at the site and shall be updated as circumstances warrant. The plan shall include procedures, which shall be followed, for dealing with complaints from the public and for investigating and remedying odour problems.

15. The first samples shall be taken before 10,000 cubic metres of compost has been accumulated, or before one year has passed, whichever first occurs after the first receipt of waste at the site. Thereafter samples shall be taken before an additional 10,000 cubic metres is accumulated, or before one year has passed, whichever occurs first after the most recent samples. However, if all the analyses in the two years preceding the most recent analysis are consistent with that analysis, samples need only be taken before 30,000 cubic metres is accumulated, or before one year has passed, whichever occurs first after the most recent samples.
16. Samples shall be taken by taking ten grab samples from diverse points within the accumulated compost. Each grab sample must contain at least twenty litres of compost and must be taken from a point at least one metre inside the accumulated compost. The analysis shall be of a composite of those samples.
17. A record shall be kept of the analyses of compost. Any laboratory reports received shall be kept as part of the record. A record of an analysis shall be kept for at least three years after the analysis is performed.
18. Controlled compost, as defined in section 33, may not be removed from the site except for direct shipment to the intended user of the compost in accordance with paragraphs 19 and 20.

 - (b) is exempt from Part V of the Act and the regulations relating to Part V of the Act, in any other case. O. Reg. 101/94, s. 32.
- 33.—(1) In this section, "controlled compost" means compost that is designated as waste under clause 32 (a) and that, according to the analysis performed in accordance with paragraphs 14 to 16 of section 31, does not contain any substance in Column 1 of Table 1 in a concentration greater than the concentration opposite in Column 3.
- (2) Controlled compost is exempt from Part V of the Act and the regulations on the following terms and conditions:
 1. The controlled compost is not used except as allowed under paragraphs 2 and 3.
 2. The controlled compost may be used as compost in soil if,
 - i. the place where the compost is used is within 200 metres of any part of a municipal water system or a municipal sewage system,

 - iii. the person who uses the compost keeps a record, for at least ten years after using the compost, of the date the compost was used, the amount of compost used and the chemical analysis of the compost received from the producer of the compost.
 3. The controlled compost may be used as a cover material at a landfilling site. O. Reg. 101/94, s. 33.
34. A leaf and yard waste composting site is exempt from sections 9, 27, 40 and 41 of the Act if all buildings and processing or storage areas that are part of the site are at least 100 metres from the boundaries of the parcel of land upon which the buildings and processing or storage areas are located and from any lake, river, pond, stream, reservoir, spring or well. O. Reg. 101/94, s. 34.
- 35.—(1) If section 34 applies to a leaf and yard waste composting site that was a waste disposal site operating under the authority of a

certificate of approval or provisional certificate of approval for the acceptance, processing and transfer, but not the final disposal, of leaf and yard waste and on application therefor, that site receives termination of its certificate from the Director and commences operation as a leaf and yard waste composting site, paragraphs 16, 18 and 19 of section 23 do not apply.

(2) Despite subsection (1), the notice referred to in paragraph 16 of section 23 must be submitted to the Director and the local District Office of the Ministry before the site's first acceptance of waste as a leaf and yard waste composting site.

(3) In the event that no waste is accepted at the site operating as a leaf and yard waste composting site within 180 days after the notice is given to the Director, a new notice under paragraph 16 of section 23 is required and this section ceases to apply to the site.

(4) In subsection (1), "final disposal" means disposal by incineration, by landfilling or by deposit at a dump, which deposit does not include the handling, storing, transferring, treating or processing of waste at a dump, all within the meaning of Regulation 347 of the Revised Regulations of Ontario, 1990.
